

聚丙烯超高强力丙纶缆绳 Powerful Polypropylene Ropes

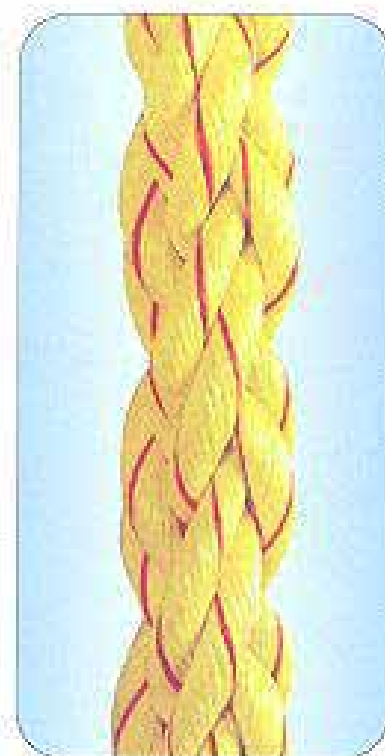

核心指标断裂强度超过高强丙纶长丝缆绳30%以上，相应的比ISO01346:1990版标准高30%以上

密度<1，浮水。耐磨性好、高强度、沥水快、操作轻便。特别是作为拖缆使用具有极高的性价比。

采用国外进口设备，运用世界先进工艺组织生产。

国内唯一，亚洲领先，结束了该产品依赖进口的历史。

适用于船舶系泊带缆、港口拖带等领域。

Designed for high tension work loading, it can be used as mooring ropes. The durability of this rope does not decrease as the strength of the load increases.

The breaking strength is 30% stronger than normal polypropylene.

The specific gravity is 0.91, so it can float in water.

Superior abrasion resistance, high intensity and easy handling

It will be elongated when it is necessary to absorb shocks.

Equipments with advanced techniques are introduced.

Ropes of other lengths can be made.

尺寸		重量	破断强力	
Size		Kg/220m weight	Tons Breaking Strength	
32	4	102	16.8	17.4
36	4-1/2	129	21.0	21.8
38	4-3/4	145	22.0	23.0
40	5	158	26.2	27.5
44	5-1/2	194	31.2	32.5
48	6	229	36.3	38.0
52	6-1/2	268	43.0	45.0
56	7	312	48.1	50.5
60	7-1/2	359	55.5	58.3
64	8	407	62.1	65.2
72	9	515	77.7	81.6
80	10	638	95.6	100
88	11	772	116	122
96	12	916	136	142
104	13	1070	158	165
112	14	1250	184	192
120	15	1430	205	213
